Piero awakes with a splitting headache. Looking at the clock, he sees it's midday. He gets out of bed and drags himself towards the kitchen. It's covered in glasses and dirty plates.

Last night's party was a great success but now he has to clear up. He makes coffee, thinking as he does so what a good birthday it had been, even if it was his 30th!

Piero is an IT technician and works in a small company outside Florence.

He lives in a small flat with his cat, Miro, and yesterday he had invited some friends around to celebrate his birthday.

The party had been great fun, the best for ages, but he can't stop thinking of something said jokingly by his friends: "Happy birthday! You're really old now!" It continues to bother him as he tackles the washing up.

Researchers say they have found the likely time in history when human beings first began to speak. Dr Steven Mithen, an archaeologist and expert in prehistory, suggested that basic language was formed around 1.6 million years ago. This is eight times earlier than many scientists thought. Experts in evolution previously believed that spoken human language began around 200,000 years ago. Mithen said his studies show that the first human language developed either in eastern or southern Africa. He said the ability to speak helped evolution. He said speech was, "without doubt, the key which made much of subsequent human physical and cultural evolution possible".

I wanted to send you an email update to you let you know how things have been going during my semester abroad here in Málaga, Spain. I've already been here for six weeks, and I feel like I am finally adapting to the culture. I'm also speaking the language more fluently.

I arrived during the first week of September. The weather has been very nice. Even though it's October, it's still rather sunny and warm. In fact, I went to the beach and swam in the Mediterranean Sea earlier today.

I am living with a very welcoming host family. I have my own private bedroom, but we eat breakfast, lunch, and dinner together. On Sundays, we eat a big home-cooked paella for lunch. In Spain, lunch is usually the biggest meal of the day. It's also very common for the people to take a midday nap right after a big meal. I am actually just waking up from my nap right now!

Since 2004, Gmail has become the world's biggest email provider. More than 1.7 billion people use it. That's 20 per cent of the world population. Around 45 per cent of email users in the USA use it. Over the years, Google has increased its free storage to 15 gigabytes and has added many new features. One of these is a one-click unsubscribe button to keep unwanted mail away. Another feature is an "undo send" button. This allows users to stop a mail from being sent after clicking "send". The PC Mag website said Gmail is an important part of life today. It wrote: "Gmail is so embedded in so many people's lives that hardly anyone thinks much about it." It is likely people will use it forever.

I just returned from the greatest summer vacation! It was so fantastic, I never wanted it to end. I spent eight days in Paris, France. My best friends, Henry and Steve, went with me. We had a beautiful hotel room in the Latin Quarter, and it wasn't even expensive. We had a balcony with a wonderful view. We visited many famous tourist places. My favorite was the Louvre, a well-known museum. I was always interested in art, so that was a special treat for me. The museum is so huge, you could spend weeks there. Henry got tired walking around the museum and said "Enough! I need to take a break and rest."

My name is Angela. I'm 25 years old, and I live on my own in a town in the north of England. I work as an engineer, and I like my job very much. But I want to live in York, with my boyfriend, David. We have to travel twenty miles every time we want to be together. York is a beautiful historic city, with many old buildings and narrow streets. It's much nicer than my own town, which is modern, and not at all interesting.

My boyfriend, David, is a dentist. He's happy to work in the centre of this small city. He can go shopping in his lunch hour, or go for a walk and look at the ducks on the river. He doesn't need a car, unless he wants to drive out of York into the countryside.

There are several museums in York, and a large cathedral. Tourists come there from all over the world to walk along the city walls, or to visit the famous railway museum, or to go in a boat on the river. In the spring, the whole city is bright with flowers. The spring is my favourite season.

Every year we go to Florida. We like to go to the beach.

My favorite beach is called Emerson Beach. It is very long, with soft sand and palm trees. It is very beautiful. I like to make sandcastles and watch the sailboats go by. Sometimes there are dolphins and whales in the water!

Every morning we look for shells in the sand. I found fifteen big shells last year. I put them in a special place in my room. This year I want to learn to surf. It is hard to surf, but so much fun! My sister is a good surfer. She says that she can teach me. I hope I can do it!

Everybody knows that exercise is essential to keep us healthy. It lowers the risk of heart disease, and helps us to maintain a healthy weight. It also reduces stress and makes us happier. Doctors say that exercising in cold weather is even better for us. Going for a jog or even a swim when it's chilly or freezing outside has extra benefits for our physical and mental health. The reason for this is that the cold gives our heart a more energetic workout. Dr Angela Pepdjonovic, from the Hospital for Special Surgery in New York, explained why. She said: "Your heart has to work a little bit harder to pump blood around your body...in the cold. This can help to boost your endurance over time." Dr Pepdjonovic said cold-weather workouts can help the body burn calories at a faster rate. She said: "As your body is required to work harder to maintain its core temperature, you actually increase your calorie burn by exercising in the cold." Physical activity in cold temperatures can boost our metabolism, which helps us lose weight. In the cold, our metabolism slows down, so we can preserve fat and keep warm.
