##### **Traccia 4**

The world's most utilized email provider turned 20 on Monday. Gmail was launched on the 1st of April 2004. At that time, it was revolutionary because it offered a huge amount of storage, and it was free. Some people thought it was a hoax because it was announced on April Fools' Day. However, it was no joke. Gmail offered an enormous 1 gigabyte of storage for free.

Many other providers only provided 15 megabytes. At first, people could only sign up for Gmail after receiving an invitation. It became a "must-have" tool for technology fans. Another reason for Gmail's success is that it searched mails faster than any other email service at the time. It was also better at filtering spam.

My name is Clark, and I will tell you about my city.

I live in an apartment. In my city, there is a post office where people mail letters. On Monday, I go to work. I work at the post office. Everyone shops for food at the grocery store. They also eat at the restaurant. The restaurant serves pizza and ice cream.

My friends and I go to the park. We like to play soccer at the park. On Fridays, we go to the cinema to see a movie. Children don't go to school on the weekend. Each day, people go to the hospital when they are sick. The doctors and nurses take care of them. The police keep everyone safe. I am happy to live in my city.

Did you

Dr Mithen explains how he believes human speech developed so long ago in his new book called, "The Language Puzzle". He says our brain quickly increased in size just over 1.5 million years ago. This increase changed the structure of our brain. An area called the frontal lobe developed. This is the part of the brain that produces language. Another important change was the development of our vocal tract. This is where we produce sound, and therefore speech. Mithen said speech allowed humans to spread around the world. It meant humans could do three important things. They could think of and plan future actions, and they could pass on knowledge. Mithen said language "changed the human story profoundly"

### **Traccia 13**

Marianna is 22 years old. She comes from Siracusa in Sicily, but now lives in Bologna, where she has started studying for a Masters degree in the history of art.

She chose to study in Bologna because its university is the oldest in the western world and many famous people have studied there in the past.

Early October in Bologna is still warm, so after her lessons Marianna likes to walk through the historic medieval centre – one of the biggest of its kind in the world. She strolls under the porticoes which are characteristic of the city, and across Piazza Maggiore, its beautiful central square. She loves looking in the shop windows, and sometimes stops for a coffee in one of the many bars she passes.

### **INFORMATICA:**

- E' possibile da word creare un file .pdf?
- Dati due documenti come si crea un file .zip
- Crea cartella per inserimento documento
- Crea documento e redigilo sul foglio orizzontale
